

**RiNDiS**

RINSING AND DISINFECTION SYSTEMS

**WHEEL WASH  
SYSTEMS**

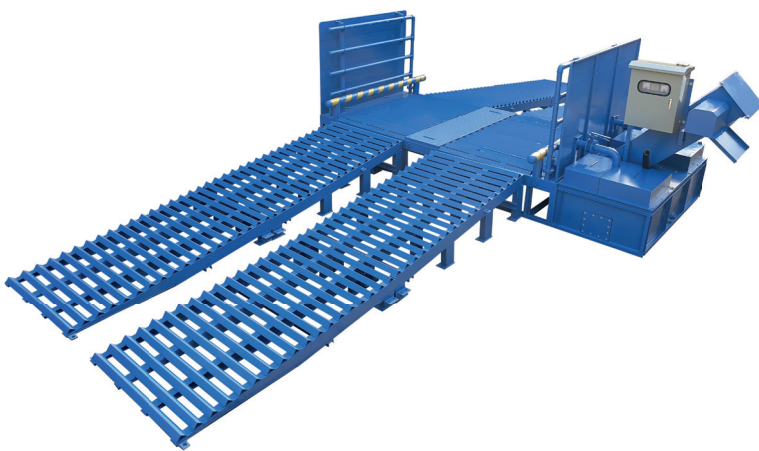

## MOBILE SYSTEMS (M)

These compact systems are portable and can be fitted quickly. Ideal for the short term!

The wheels and chassis are thoroughly cleaned, even in places that are difficult to access.

### BENEFITS:

- Compact and portable
- Cleans areas that are difficult to access
- Simple and rapid installation
- Smooth control and easy maintenance
- Can be customised to your requirements
- Hot dip galvanised wash platform
- Internal water recuperation

## MOBILE FAST (MF)

- Thorough cleaning
- Automatic sludge discharge with conveyor
- Water recuperation
- Mobile or full-integrated system
- Optimum dirt separation (+)
- 30 vehicles/hour - 175 vehicles/day
- Water reservoir – 4.5 m<sup>3</sup>
- Pump capacity – 2,000 l/min
- Power consumption – 11.5 kW/h
- For lorries and tractors
- Drive-through width – 3.5m

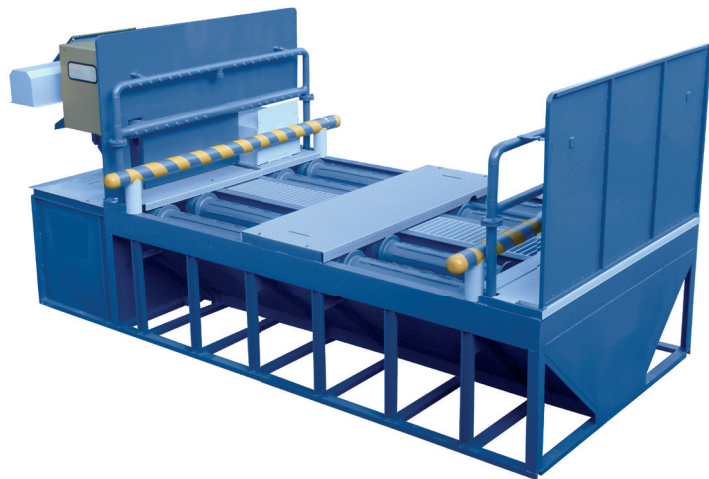

### MOBILE EASY (ME)

- Thorough cleaning
- Automatic sludge discharge
- Water recuperation
- Mobile mounting system
- Optimum dirt separation (++)
- 40 vehicles/hour - 250 vehicles/day
- Water reservoir – 9 m<sup>3</sup>
- Pump capacity – 2,000 l/min
- For lorries and tractors
- Drive-through width – 3.5m
- Power consumption – 23 kW/h

### MOBILE COMPACT (MC)

- Cleans wheels thoroughly
- Automatic sludge discharge
- Water recuperation
- Mobile mounting system
- Extreme dirt separation (+++)
- 15 vehicles/hour - 150 vehicles/day
- Water reservoir – 5 m<sup>3</sup>
- Pump capacity – 3,500 l/min
- For lorries

### OPTIONS:

- Drive-over matting
- Winter package
- Bidirectional traffic
- Automatic dosing of flocculation agent

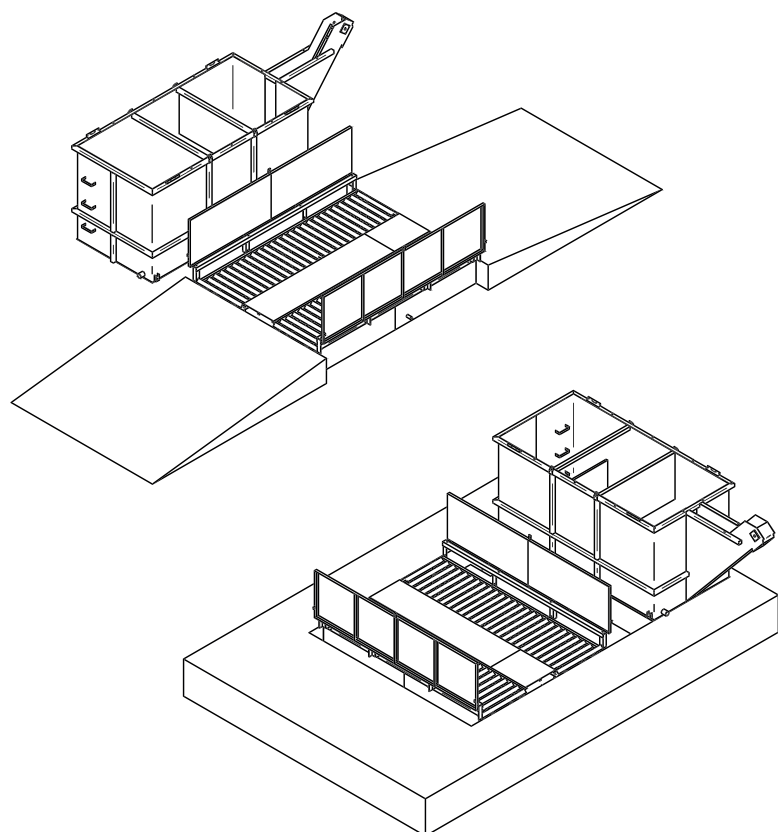

## IMMOBILE WASHING SYSTEMS (I)

These high-performance fixed systems meet tough requirements and are perfect over the long term!

They thoroughly clean the wheels and chassis, even in places that are difficult to reach.

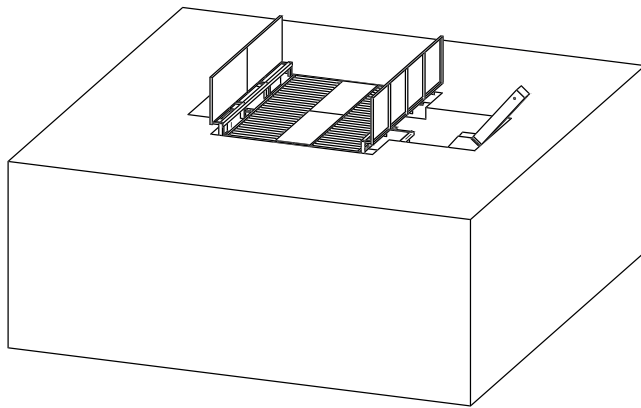

### BENEFITS:

- Extremely high-performance cleaning
- Long-term applications
- Smooth control and easy maintenance
- Can be customised to your requirements
- Hot dip galvanised wash platform
- Internal water recuperation

## IMMOBILE CONVEYOR TOP (IT)

- Thorough cleaning
- Automatic sludge discharge
- Water recuperation
- Static, fully-integrated system
- Extreme dirt separation (+++)
- >60 vehicles/hour - >400 vehicles/day
- Water reservoir – 16-32 m<sup>3</sup>
- Pump capacity – 2,500-15,000 l/min
- For lorries and tractors

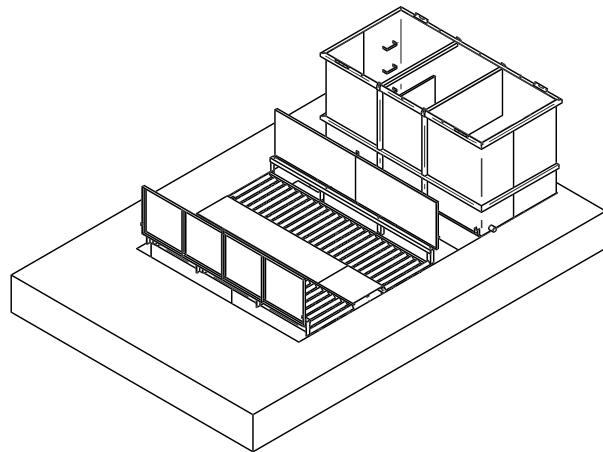

### IMMOBILE CONVEYOR IN (ICI)

- ▮ Thorough cleaning
- ▮ Automatic sludge discharge
- ▮ Water recuperation
- ▮ Static and fully-integrated system
- ▮ Extreme dirt separation (+++)
- ▮ >60 vehicles/hour – >400 vehicles/day
- ▮ Water reservoir – 16-48 m<sup>3</sup>
- ▮ Pump capacity – 2,500-15,000 l/min
- ▮ For lorries, tractors and dumper trucks.

### IMMOBILE IN (II)

- ▮ Thorough cleaning
- ▮ Mechanical sludge discharge
- ▮ Water recuperation
- ▮ Static and fully-integrated system
- ▮ Extreme dirt separation (+++)
- ▮ >60 vehicles/hour – >400 vehicles/day
- ▮ Water reservoir – 20-60 m<sup>3</sup>
- ▮ Pump capacity – 2,500-15,000 l/min
- ▮ For lorries and tractors.

### IMMOBILE CUSTOM BUILT (ICB)

- ▮ Custom-built
- ▮ Heavy-duty vehicles
- ▮ Specific load or cleaning

### OPTIONS:

- ▮ Drive-over matting
- ▮ Winter package
- ▮ Heavy-duty pumps
- ▮ Automatic dosing of flocculation agent
- ▮ Bidirectional traffic

**Stop dirt!**

Prevent it from entering or  
leaving your site!

The extremely thorough cleaning system leaves  
wheels clean at all times, even in places that are  
tricky to access. Dirt will not leave your site,  
nor will it get a chance to enter.

## WHY CHOOSE RINDIS?

Fast response

Offers high-quality products

Reliable

Adapts systems to your needs

Technical service and support

Wheel washing systems are available from stock

Industrieweg 19, 8750 Wingene, Belgium | T 0032 50 69 85 50
